Employer Contribution to Retirement Account Benefit

To encourage employees to save for retirement, FCS contributes an additional 8% of employee salaries to a 403(b)-retirement account each month. Employees are required to set up an appointment with the FCS Group Retirement Administrator to discuss options for available mutual fund accounts that most closely meet your retirement goals/needs.

Employees are vested upon beginning employment and the retirement account is immediately portable.

Employer Contribution to Health Savings Account Benefit

If a new employee has an existing Health Savings Account (HSA) or opens a new HSA within fourteen (14) calendar days before the second (2nd) payroll date after their start date, FCS will make a one-time contribution of \$500 to this account.

Group Term Life Insurance

A group term life and accidental death and dismemberment insurance policy is provided to each employee (after 30 days of employment) for \$50,000 each.

Long-Term Disability Insurance

A modest long-term disability policy is provided to all employees. If an employee has an extended illness or injury, which could continue for ninety (90) or more days, this policy would pay up to 60% of current salary for the length of the disability.

The use of disability insurance is complex and it is important to understand its use as early as possible. If an employee finds that they have need to access this insurance, the employee should meet with the FCS Human Resources Office to have this insurance explained.
